

CALL FOR EXHIBITORS

The 2017 U.S. WORKSHOP on the PHYSICS and CHEMISTRY of II-VI MATERIALS

Participating Agencies: U.S. Army RDECOM CERDEC Night Vision & Electronic Sensors Directorate; U.S. Army Research Laboratory; U.S. Army SMDC; U.S. Navy Electro-Optics Center; Office of Naval Research; Air Force Research Laboratory; The Minerals, Metals & Materials Society
Endorsed by: The American Physical Society

<http://www.ii-viworkshop.org>

October 30-November 2, 2017
Embassy Suites Lakefront Hotel
Chicago, IL, USA

The 2017 U.S. Workshop on the Physics and Chemistry of II-VI Materials will take place *October 30-November 2, 2017* at the *Embassy Suites Lakefront Hotel, Chicago, IL, USA*. Applications for tabletops are currently being accepted.

The Workshop brings together academia and the industrial and governmental communities that work with II-VI materials, which are critical in a wide range of detector technologies, including those operating in the IR, UV, X-ray, and gamma-ray regions of the spectrum. These have applications in many fields, including national security, homeland security, medicine, industrial process monitoring, basic science, and more. The Workshop aims to advance the understanding of the basic physics and chemistry of these materials and thereby contribute to the continual improvement of these system capabilities.

Don't miss this opportunity to showcase your products and services before the world's leading II-VI experts and professionals. Space is limited, so reserve early!

Tabletops cost \$750 each to include a 6ft. table, 2 chairs and electric.
